TechnipFMC is a global leader in subsea, onshore/offshore, and surface projects. With our proprietary technologies and production systems, integrated expertise, and comprehensive solutions, we are transforming our clients' project economics.

We are uniquely positioned to deliver greater efficiency across project lifecycles from concept to project delivery and beyond. Through innovative technologies and improved efficiencies, our offering unlocks new possibilities for our clients in developing their oil and gas resources.

Each of our 44,000 employees is driven by a steady commitment to clients and a culture of purposeful innovation, challenging industry conventions, and rethinking how the best results are achieved.

This partnership is built on four key pillars:

- Shared values - A similar vision, core values and commitment to support customer success;
- Market leadership - Recognized leaders with a proven track record in the subsea industry;
- Common footprint - Each company offers complementary services to the subsea value chain;
- Technology experts - Providers of technologically advanced solutions on a global scale.

TechnipFMC strongly supports providing opportunities to Canadian companies, particularly those in Newfoundland and Labrador, on a commercially competitive basis. Pre-qualified companies will be required to complete a Canada / Newfoundland & Labrador Benefits Questionnaire at the Tender Stage.

Additionally, if your company has not previously pre-qualified or has not provided services to TechnipFMC in the past two years, a TechnipFMC Vendor Pre-Qualification Questionnaire is required to be submitted with the Expression of Interest.
